## A CRM made for recruiters, by recruiters

www.rdbnow.com

## Our Core Benefits

### CRM

Your central hub to manage placements, candidates and clients with customisable workflows for each brief.

### Pay & Bill

Seamless end-to-end integration to Astute Payroll, PinvoiceR, Flexitime, 2cloudnine and Recruit Complete.

### Online Timesheets

Includes an integrated online timesheet system or integrate a 3rd party application with ease.

### Web & Mobile Suites

Client and candidate portals via independent platforms, with website-to-database live integration makes working on-the-go a breeze.

### Hosting

Instantly lower operating costs and remove the hassle of IT, data back-ups, maintenance and security.

### Business Intelligence

Direct integration to specialist dashboard reporting suites provided by Cube19 and Northstar.

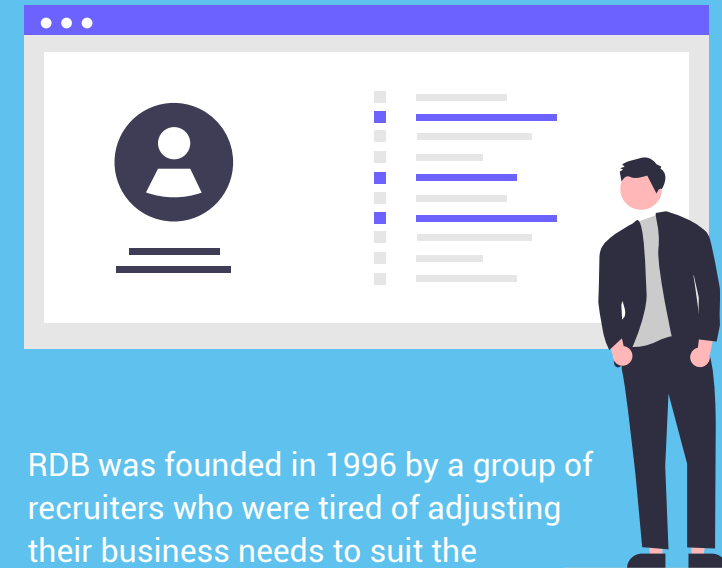

## Why Choose RDB

RDB is the leading provider of temporary recruitment software for agencies and organisations of all sizes. Our flagship CRM solution RDB ProNet is fully scalable and integrates seamlessly with a wide array of modular business tools.

- Australian based support – no overseas call centres
- Manage the entire recruitment process from end-to-end
- The most customisable, Microsoft founded recruitment software available
- Proven switchover program to move seamlessly from legacy systems
- Anti-duplication software for maximum data integrity
- CV parsing for instant candidate record creation
- Customise and deploy reports to suit your organisation
- Easily manage multi-shift placements with varying candidate availability

## Our Mission

RDB was founded in 1996 by a group of recruiters who were tired of adjusting their business needs to suit the limited scalability of other CRMs; RDB streamlines complicated temporary recruitment processes while integrating the look and needs of each unique organisation. Powered by The Access Group, RDB has become the industry favourite for agencies and large internal recruitment departments all over Australia and New Zealand.
